

## Little Bromley Parish Council

### **Public Participation note:**

Little Bromley Parish Council values the exceptionally positive relationship it enjoys with its residents. While the formal Public Participation item provides a dedicated opportunity for parishioners to raise matters, the Council recognises that its meetings consistently benefit from constructive, respectful dialogue with those attending. With regular public attendance of around ten residents or more, this ongoing engagement is a distinctive strength of the parish. Councillors therefore welcome brief, relevant contributions from the public at appropriate points during the meeting, provided this supports the smooth conduct of business and respects the Chairman's direction. This approach complements the SLCC's guidance and reflects the collaborative, community-focused ethos that works so effectively in Little Bromley.
